

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, AUGUST 29, 2006 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

On September 2, 2006 a new format for the daily Incident Management Situation Report (IMSR) will be implemented to provide a more efficient display of information.

Initial attack activity was light nationally with 121 new fires reported. Four new large fires were reported in the Northern Rockies Area. Two large fires were contained in the Southern Area. Very high to extreme fire indices were reported in California, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153rd Airlift Wing ANG, Cheyenne, Wyoming, and the 302nd Airlift Wing ANG, Peterson Air Force Base, Colorado, are deployed to Klamath Falls, Oregon. Lt. Col. Gerald Champlin is the Mission Commander. Two MAFFS C-130 aircraft and support personnel from the 146th Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Maj. Bill Green is the Mission Commander.

The U.S. Army Task Force Blaze, commanded by Maj. Jody Miller, is deployed to the Tripod Complex in Washington.

New Zealand and Australia are providing 92 fire specialists and managers to assist with suppression operations. Canada is providing ten 20-person crews, 12 smokejumpers and 59 fire specialists and managers.

NORTHWEST AREA INCIDENTS/LARGE FIRES:

COLUMBIA COMPLEX, Southeast, Washington Department of Natural Resources. A transfer of command from a Type 2 Incident Management Team (Jennings) to a Type 1 incident Management Team (Lohrey) will occur on 8/30. This Complex, comprised of six fires, is 15 miles northeast of Walla Walla, WA in grass, brush and mixed conifer. Numerous residences, a watershed and fisheries remain threatened. Evacuation orders and area road closures remain in effect. Torching, spotting and upslope runs were observed.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Whitney) and a Type 2 Washington Interagency Management Team (Gormley) are assigned. Whitney's Team is also managing the Cedar Creek and Tatoosh Complex fires. This Complex is seven miles northeast of Winthrop, WA in mixed conifer. Numerous residences and other structures remain threatened. Backing fire, spotting, crowning and torching was observed.

SHAKE TABLE COMPLEX, Malheur National Forest. An Oregon Department of Forestry Incident Management Team (Hunt) is assigned. This Complex, comprised of nine fires, is 12 miles southeast of Dayville, OR in timber. Residences, a lookout and a communication site are threatened. Area road closures remain in effect. Running, torching and spotting were observed.

CASCADE CREST COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Wilcock) is assigned. This Complex, comprised of the Lake George, Puzzle and Black Crater

fires, is 35 miles northwest of Bend, OR in timber and heavy dead and down fuels. Structures, communication sites and a fish hatchery remain threatened. Area recreation sites remain closed. Creeping, torching and spotting fire behavior was reported.

CARBON COPY COMPLEX, South Puget Sound, Washington Department of Natural Resources. A Washington Interagency Type 2 Incident Management Team (LaFave) is assigned. This Complex is eight miles southeast of Carbonado, WA in timber and heavy dead and down fuels. Steep, rugged terrain and rolling debris are hampering containment efforts. Active fire behavior with occasional torching was reported.

JIM CREEK, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This fire is 20 miles southeast of Anatone, WA in grass and timber. Steep, remote terrain is impeding containment efforts. Interior burning and isolated spotting were observed.

SHARPS RIDGE, Umatilla National Forest. A Type 2 Incident Management Team (Goheen) is assigned. This fire is 15 miles southeast of Dale, OR in mixed conifer and heavy dead and down fuels. Difficult access is impeding containment efforts. Torching, running and spotting were reported.

SOUTH END COMPLEX, Burns District, Bureau of Land Management. A Type 1 Incident Management Team (Opliger) is assigned. This Complex, comprised of the Division E Complex and four other fires, is six miles west of Fields, OR in sagebrush, grass and juniper. Residences and area campgrounds are threatened. Interior burning and group tree torching were reported.

FLICK CREEK, North Cascades National Park. A Fire Use Management Team (Weldon) is assigned. The Team is also managing the Tin Pan WFU. This fire is one mile east of Stehekin, WA in lodgepole pine, Douglas fir and spruce. Structures and recreational developments remain threatened. Group tree torching was observed.

TIN PAN, Okanogan-Wenatchee National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Residences and historical structures are threatened. Active fire behavior with short runs was observed.

TATOOSH COMPLEX, Okanogan-Wenatchee National Forest. This complex, comprised of six fires, is 24 miles northwest of Mazama, WA in timber. Remote access is hampering containment efforts. Active fire behavior was reported.

CEDAR CREEK, Okanogan-Wenatchee National Forest. This fire is eight miles southwest of Mazama, WA in timber. Accessibility and steep terrain are hampering containment efforts. Group tree torching and crown runs were observed.

MT. HOOD COMPLEX, Mt. Hood National Forest. This complex, comprised of 13 fires, is six miles east of Government Camp, OR in timber and heavy dead and down fuels. Steep terrain and heavy fuel loading are hampering containment efforts. Smoldering, creeping and occasional single tree torching were observed.

PALOUSE RIVER, Washington Fire Service. This fire is three miles northeast of Colfax, WA in grass and timber. No new information was reported. This will be the last report unless new information is received.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Zimmerman) is assigned to manage fires on the Payette National Forest.

RATTLESNAKE COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This Complex is 13 miles northeast of Garden Valley, ID in subalpine fir and pine. Limited road access is impeding containment efforts. Residences, commercial property and several campgrounds remain threatened. Structure protection is in place. Backing fire, group tree torching, short uphill runs and short range spotting were observed. Burn out operations continue.

TRAILHEAD, Sawtooth National Forest. A Type 1 Incident Management Team (Martin) is assigned. This fire is 10 miles southwest of Stanley, ID in lodgepole pine and Douglas fir. Numerous residences remain threatened. Torching and short range spotting were reported.

BATTLE MOUNTAIN, Bridger-Teton National Forest. This fire is 30 miles northeast of Pinedale, WY in timber. Creeping with occasional group torching was observed.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A transfer of command from a Fire Use Incident Management Team (Svalberg) to another FUMT (Perkins) will occur today. This lightning caused Wildland Fire Use (WFU) Complex is being managed to accomplish resource objectives. The fires are burning 30 miles west of Challis, ID in timber and grass. Residences,

campgrounds, and fisheries remain threatened. Structure protection is in place for one ranch. Surface fire, group tree torching, spotting and short duration crown runs were observed.

SOUTH FORK COMPLEX, Payette National Forest. A Type 2 Incident Management Team (Reed) is assigned. This Complex, comprised of 26 fires, is 13 miles east of McCall, ID in timber. The town of Yellow Pine, Krassel Work Center, lookout towers, power lines and campgrounds remain threatened. Structure protection is in place. Numerous roads in the fire area remain closed. Isolated torching and short range spotting were reported.

DEVIL'S DEN, Fishlake National Forest. A transfer of command from a Type 1 Incident Management Team (Feser) and a Utah State Department of Natural Resources Division of Forestry Team (Johnson) back to the local unit has occurred. This fire is three miles southeast of Oak City, UT in grass and brush. Active interior burning was observed. Decrease in acreage is due to better mapping.

RED MOUNTAIN, Boise National Forest. A Type 2 Incident Management Team (Raley) is assigned. The Team is also managing the Boundary Complex. This fire is 16 miles northeast of Lowman, ID in subalpine fir and lodgepole pine. Campgrounds, a Forest Service guard station and fisheries habitat remain threatened. Bull Trout campground remains closed. Short uphill runs, single tree and group torching were reported.

MESSENGER, Payette National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 18 miles southeast of Council, ID in subalpine fir. Lack of road access is impeding containment efforts. Commercial resources are threatened. Smoldering and creeping were observed.

PAYETTE WFU COMPLEX, Payette National Forest. A Fire Use Management Team (Hall) is assigned. The Team is providing logistical support for the Trout Creek incident. This lightning caused Wildland Fire Use (WFU) incident, comprised of 12 fires, is being managed to accomplish resource objectives. The fires are burning 20 to 50 miles northeast of McCall, ID in timber. Smoldering and creeping were reported.

TROUT CREEK, Payette National Forest. This fire is 50 miles northeast of McCall, ID in timber and grass. Fisheries habitat remains threatened. Minimal fire behavior was observed.

BOUNDARY COMPLEX, Salmon-Challis National Forest. This Complex is 14 miles southeast of Landmark, ID in grass and timber. The Boundary Creek area remains closed to public access. Smoldering, backing fire and short uphill runs with single and group tree torching were reported. This fire is in monitor status.

POTATO, Salmon-Challis National Forest. This fire is nine miles northeast of Stanley, ID in timber. Minimal fire activity was observed. This fire is in monitor status. This will be the last report unless significant activity occurs

SNAKE COMPLEX, Arizona Strip Field Office, Bureau of Land Management. This fire is 39 miles south of St. George, UT in grass and brush. Minimal fire activity was reported.

HORSE CREEK, Bridger-Teton National Forest. This fire is six miles northeast of Hoback Junction, WY in timber and heavy dead and down fuels. Minimal fire activity was observed.

CRYSTAL, Idaho Falls District, Bureau of Land Management. This fire is 20 miles northwest of American Falls, ID in grass. Minimal fire activity was reported.

NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

DERBY FIRE, Gallatin National Forest. A Type Incident 2 Management Team (McNitt) is assigned. This fire is 15 miles south of Big Timber, MT in timber, heavy dead and down fuels and grass. Numerous residences and other structures remain threatened. Short runs and active backing fire behavior was reported.

HEAVENS GATE COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Stanich) is assigned. This Complex, comprised of four fires, is 10 miles west of Riggins, ID in grass and timber. Structures, including a Forest Service lookout and repeater site are threatened. Structure protection is in place. Torching and short uphill runs were observed.

HUGHES 32 COMPLEX, Idaho Panhandle National Forest. This Complex, comprised of four fires, is 16 miles northwest of Nordman, ID in cedar, hemlock and subalpine fir. Canadian power lines are potentially threatened. Structure protection remains in place for a historic fire lookout. Torching and spotting were reported.

SUN DOG, Flathead National Forest. A Type 2 Incident Management Team (Heintz) is assigned. This fire is 18 miles north of Whitefish, MT in timber. A historical cabin and watershed are threatened. Steep terrain and remote access are hampering containment efforts. Fire behavior included tree torching and short runs.

ULM PEAK, Idaho Panhandle National Forest. A Type 2 Incident Management Team (Reid) is assigned. This fire is 12 miles southwest of Noxon, MT in subalpine fir and hemlock. A radio repeater site is threatened, and structure protection is in place for a Forest Service lookout. Steep terrain and poor access are hampering containment efforts. Torching, running and spotting fire behavior was reported.

GASH CREEK, Bitterroot National Forest. This fire is six miles southwest of Victor, MT in mixed conifer and heavy dead and down fuels. Smoldering and creeping were observed.

CLARKS CANYON, Central Land Office, Montana Department of Natural Resources and Conservation. This fire is 17 miles south of Dillon, MT in grass and sagebrush. Smoldering and creeping were reported.

STINKY, Yellowstone National Park. This fire is 37 miles southeast of Gardiner, MT in lodgepole pine. Minimal fire activity was observed.

HOLLAND PEAK, Flathead National Forest. This fire is five miles east of Condon, MT in timber. Steep, rugged terrain is hampering containment efforts. Torching, spotting and short crown runs were observed.

ASHLEY LAKE, Flathead Agency, Bureau of Indian Affairs. This fire is six miles northeast of St. Ignatius, MT in alpine timber. The fire is in monitor status. Group tree torching, backing and creeping were observed.

RENSHAW, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 46 miles west of Hamilton, MT in grass and timber. Minimal fire activity was reported. This will be the last narrative report unless significant activity occurs.

TANGO POINT, Flathead National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning eight miles east of Condon, MT in timber. Smoldering was reported. This will be the last narrative report unless significant activity occurs.

PETTIBONE, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 40 miles southwest of Hamilton, MT in timber. A portion of the Pettibone Trail is closed. Minimal fire activity was reported. This will be the last narrative report unless significant activity occurs.

JENNY CREEK, Flathead National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 17 miles south of Ovanda, MT in timber. Smoldering was reported. This will be the last narrative report unless significant activity occurs.

ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

PURDY, Shoshone National Forest. A transfer of command from a Type 2 Incident Management Team (Mullenix) to another Type 2 Incident Management Team (Blume) has occurred. This fire is 21 miles west of Dubois, WY in lodgepole pine, spruce, fir and sagebrush. Numerous structures and grazing allotments are threatened. Heavy fuel loading and difficult access are hampering containment efforts. Smoldering, creeping and single tree torching were observed.

OUTLAW 2, Casper County. This fire is 20 miles southwest of Kaycee, WY in grass and timber. The upper portion of the fire received precipitation. Minimal fire activity was reported.

NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This Complex, comprised of the Somes and Buck fires, is four miles west of Orleans, CA in timber and dead and down fuels. Steep, rugged terrain and accessibility are hampering containment efforts. Minimal fire activity was reported.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This Complex, comprised of four fires, is 12 miles northwest of Weaverville, CA in timber and brush. Residences and historic mining sites remain threatened. Difficult access

continues to hamper containment efforts. Fire behavior increased due to stronger winds, lower humidity and higher temperatures.

UNCLES COMPLEX, Klamath National Forest. A Fire Use Management Team (Hahnenberg) is assigned. This Complex, comprised of the Uncles, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Structure protection is in place for cabins threatened by the Hancock fire. Fire behavior increased due to stronger winds, lower humidity and higher temperatures.

OUTLOOK:

Red Flag Warnings/Fire Weather Watches: For much of eastern Oregon, Idaho, Montana, western North Dakota, northern Nevada and western Utah due to strong winds and low relative humidity. For portions of the southern California mountains due to low relative humidity.

Weather Discussion: A strong low pressure system will move into the Pacific Northwest today with windy conditions across much of the northwest quarter of the country through mid-week. The associated cold front will bring a chance of thunderstorms to eastern portions of the Northwest, Idaho, Montana, and Wyoming Tuesday and Wednesday. Much cooler weather and higher relative humidity will follow the front Wednesday and Thursday with a chance of showers for Wyoming, and portions of Idaho and Montana. Scattered thundershowers are expected in Texas today with warmer and drier weather Wednesday through the end of the week.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northwest Area Windy. Partly cloudy with isolated thunderstorms in the mountains of northeastern Oregon.	West of Cascades: 70s East of Cascades: 80s	West of Cascades: 50% north to 30% southwest Oregon. East of Cascades: 10 to 25%.	West to southwest winds 5 to 15 mph. Winds 20 to 30 mph from the Cascade crest east.
Eastern Great Basin Area Idaho, Bridger-Teton: Mostly sunny. Northern Utah: Mostly sunny with isolated afternoon dry thunderstorms over the mountains. Southern Utah, Arizona Strip: Mostly sunny with isolated afternoon dry thunderstorms over the mountains.	Idaho, Bridger - Teton: 70 to 84 mountains, 85 to 93 valleys. Northern Utah: 76 to 86 mountains, 87 to 96 valleys. Southern Utah, Arizona Strip: 77 to 89 mountains, 90 to 104 valleys, up to 114 in the lowest valleys.	Idaho, Bridger - Teton: 14 to 21% mountains, 8 to 15% valleys. Northern Utah: 18 to 30% mountains, 8 to 17% valleys. Southern Utah, Arizona Strip: 18 to 30% mountains, 6 to 17% valleys.	Idaho, Bridger - Teton: South to southwest 10 to 15 mph with gusts up to 35 mph in Idaho. Northern Utah: West: South 15 to 20 mph with gusts to 35 mph, East: Upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: West: South 15 to 20 mph with gusts to 35 mph, East: Upslope/upvalley 5 to 10 mph.
Northern Rockies Area Very warm and dry conditions will couple with increasing southwest winds as a strong cold front approaches the western part of the Area. The east will also be very hot and dry with very strong southerly winds. Isolated thunderstorms are possible along the frontal boundary late Tuesday night.	West of divide – 75 to 85. East of divide – 90 to 95. North Dakota – 80 to 88.	West of divide - 15 to 22%. East of divide - 12 to 22%. North Dakota - 20 to 30%.	West of divide – Southwest 15 to 20 mph with locally higher gusts. East of divide – Southerly 15 to 20 mph with higher gusts. North Dakota – Southerly 15 to 20 mph with higher gusts.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Rocky Mountain Area Mostly sunny. Isolated showers and thunderstorms in the southern Colorado Front Range and eastern sections of Nebraska and Kansas.	Lower to mid 80s are likely in most locations (mid 60s to lower 70s mountains).	RH remains moist in eastern locations, while drier of 8 to 18% in the lower elevations of western Colorado and central/western Wyoming, with 20 to 25% in the mountains.	Southeast at 15 to 25 mph in eastern Wyoming, the Nebraska panhandle, and western South Dakota, with a southwest wind of 10 to 20 mph in northwest Wyoming.
Northern California Area Locally becoming partly cloudy across the northern mountains and over the far northern Sierra crest eastward. Otherwise mostly sunny except for coastal fog/ low cloud areas.	Cooler, with the warmest inland valleys 90 to 95.	Driest inland areas in a 10 to 20% range.	Southwest to west increasing by mid afternoon to 8 to 18 mph northern Sacramento Valley, to west to northwest 10 to 15 mph gusts, 25 mph on northwest mountain ridgetops, and to southwest 12 to 22 mph, gusts in 30 mph range, from Cascade/ Sierra crest eastward.
Southern California Area Morning low clouds and fog into the lower coastal valleys. Otherwise sunny.	80 to 95 mountains. 90 to 105 valleys. 100 to 105 upper deserts. 105 to 115 in the lower deserts.	50 to 70% coastal areas. 25 to 40% valleys. 5 to 15% mountains. 5 to 15% deserts.	Becoming southwest 10 to 20 mph in the afternoon.
Western Great Basin Area Partly cloudy skies.	Northern valleys: 78 to 95. Southern valleys: 92 to 108. Northern mountains: 70 to 82. Southern mountains: 83 to 93.	Northern valleys: 9 to 16%. Southern valleys: 8 to 13%. Northern mountains: 12 to 22%. Southern mountains: 8 to 13%.	Southwest to west 10 to 20 mph with afternoon gusts 30 to 35 mph.
Southern Area Central and north Texas: Mostly cloudy and cooler with thunderstorms; less activity north.	Upper 80s.	Low 40%s.	North to 8 mph.
Southern California Area No information reported.			
Southwest Area No information reported.
